

Troubleshooting

If you are having problems viewing the video try one of the following:

Internet Explorer

Right click on the video link and select “Save Target As...” and save the video somewhere on your computer. Once the video is downloaded simply double click on the file and your video player will open and the video will start playing.

Firefox

Right click on the video link and select “Save Link As...” and save the video somewhere on your computer. Once the video is downloaded simply double click on the file and your video player will open and the video will start playing.
